Eudora.Net Privacy Policy

Overview

Eudora.Net is an open source project. No registration is required. No payment is required. No submission of any user data to the Project or its members occurs. Error reporting and submission of feedback are sent using our own email addresses, not yours
.

Data Collection

The Eudora.Net Project does not collect any user information. Your email accounts, contact lists, bookmarks and history for the internal browser, and all other user data are not in any way uploaded or otherwise transmitted to the Eudora.Net Project. If enabled, the Error Reporting feature does not include any information about the user or the user's computer; only the exception (error message) and the call stack (list of functions that led to the error) are transmitted.

Data Safety

Because no user data is transmitted to the Project, simply put there is no data to protect.

Your rights pertaining to your data

The Eudora.Net software does not collect or transmit any user data to the Project or its members.
